DEPARTMENT OF ENGLISH

ORGANISES

TWO DAYS FACULTY DEVELOPMENT PROGRAMME ON

CREATIVE STRATEGIES FOR ACQUISITION OF ENGLISH LANGUAGE SKILLS

24TH AND 25TH JUNE, 2019

About The Institution

Rajalakshmi Institute of Technology was established under the Aegis of SABARI FOUNDATION in the year 2008 as a new entrant to Rajalakshmi Group of Institutions being run since 1997. This institution provides quality technical education that lay emphasis not only on knowledge, technology, information and communication but also aspires to empower the youth morally and ethically to serve the society selflessly. The vision is to set a benchmark for education providers in the field of Engineering and Technology, to provide quality technical education that fosters the spirit of learning and research and to spawn creative, globally competent, highly employable and disciplined professionals through an innovative synergistic model of education that promotes academic excellence, scientific pursuit and professionalism. The mission is to impart education that caters to the growing challenges of the industry, social needs of our nation and to upgrade the standard of teaching and learning skills. The spirit of research in engineering and technology among the youth is empowered through a good rapport between academia and industry. Currently the institution offers four disciplines of engineering courses: Computer Science and Engineering, Mechanical Engineering, Electronics and Communication Engineering and Electrical and Electronics Engineering.

About the Department

The Department of English pays special importance to the acquisition of the four skills namely, Listening, Speaking, Reading and Writing. The Engineering students have access to the Communication Skills Laboratory for developing Technical Communication Skills. The students are trained in Listening, Conversation, Oral Presentation, Group Discussion, Soft Skills, Personality Development, Reading Comprehension and Pronunciation. The Department intends to make business and Technical communication in English more effective, relevant to our social needs and professional requirements.

Objectives of the Programme

The RIT English Department feels the need to provide training to the students to acquire global skills and proficiency in communication and technical English. The teachers are given intensive orientation to acquire creative strategies for the practice of the four English language skills.

Language skills are a term that is used to describe the four LSRW Skills-Listening, Speaking, Reading and Writing. The four skills play an important role in any language learning quest. In order to communicate one should excel in these four skills, the mastery of which plays an important role in language development and communication. The programme objectives are to make the teacher:

- to envision a holistic acquisition or enhancement of the four skills, to learn and teach them to the students.
- acquire a range of vocabulary, a range of grammar, a variety of sentence structures as expertise.
- to learn rules of writing, enrich her expressions and brain storm to develop creative writing and metacognitive, cognitive and support strategies.
- to learn research writing, creative writing and multigenre writing.
- to learn syllabification, multiple choice tests and formatting literary forms.
- to integrate the four skills and to make the students communicate effectively.

The Outcome

In this way, the teacher enables an easy and effective way for the students to learn, understand and practise English comprehension and professional communication skills.

Through the use of teaching aids, methods and list of activities to be performed while teaching in the classroom, the teacher improves the students' learning outcomes in the core subjects and gets them ready for the work environment. The teacher prepares the students to meet the challenges of the real world communicative setting.
