Outcome of the Club Activity

- **Listen to Leisure** is an activity based event where the students were exposed to listen to a BBC Podcast and reflect their thoughts at the end of the session. The activity allowed them to sharpen their cognitive skills of listening.
- The event '**Read and Interpret**' involved the students to figure out their reading capability and creative visualization of the content in different dimensions.
- The Group Discussion familiarized the students with the pros and cons of the topic shared. It enlightened them with the scope of sharing their thoughts in an effective way and enhanced their team spirit.
- The Poster making activity shouldered the students to develop their presentation skills with their attractive write-ups as part of Engineer's Day celebrations.
- The Elocution competition allowed the students to shed their stage fear and be more rhetoric in nature.
